PROFESSIONAL AND RESEARCH EXPERIENCE

Graduate Student Assistant, *Liberty University, Department of Public Health*, Lynchburg, VA — Aug 2026 – Present

- Serve as a Graduate Student Assistant for undergraduate public health courses, supporting faculty with course instruction, classroom activities, and student learning.
- Assist with course administration and Canvas LMS management, including organization of instructional materials and resolution of course-related issues.
- Support classroom teaching and facilitate student engagement through discussions, activities, and presentations.
- Teach class sessions and grade student assignments in undergraduate public health courses.
- Assist with preparing grant applications through Liberty University's Office of Sponsored Programs & Research (OSPR).
- Collaborate with faculty to prepare instructional materials and provide academic support to students.

Biostatistics and Research Assistant, *Liberty University, Department of Public Health*, Lynchburg, VA — Jan 2026 – Aug 2026

- Provided biostatistics tutoring and academic support to residential and online students, strengthening quantitative understanding and research skills.
- Supported faculty with data preparation, statistical analysis, and interpretation for public health and epidemiologic research projects.
- Conducted independent secondary data analyses using linear mixed-effects models, including wearable-derived health outcomes research.
- Developed and facilitated biostatistics and research workshops to improve statistical literacy and applied data analysis capacity.
- Created instructional materials and Excel-based tutorials; guided students in interpreting statistical findings within real-world public health and epidemiologic contexts.

Research Assistant, *University College Hospital (UCH), College of Medicine, Department of Public Health*, Ibadan, Nigeria
Jul 2024 – Nov 2024

- Conducted health surveys with 100 workers across multiple police stations in Ibadan for an occupational health study on workplace safety and disease exposure, using Kobo Collect for mobile data collection in field settings.
- Ensured data accuracy and confidentiality, improving research quality and processing time.
- Prepared and presented study reports, supporting faculty with data visualization and communication of findings.
- Collaborated with researchers to coordinate study logistics and laboratory data validation.

Research and Laboratory Assistant, *Institute for Advanced Medical Research & Training (IAMRAT), University College Hospital*, Ibadan, Nigeria Apr 2021 – Oct 2021

Completed a structured rotational placement across six specialized laboratories and research departments:

- **Malaria Lab:** Contributed to research on *Plasmodium* strain differentiation; performed Giemsa and thick/thin blood film staining for microscopy-based malaria diagnosis and parasite identification.
- **Genetics Lab:** Conducted DNA and RNA extractions, PCR-based genotype testing, blood grouping, full blood count (FBC), and packed cell volume (PCV) analyses; contributed to a research project investigating glaucoma genetics.
- **Phytomedicine Lab / Virology Department (UCH):** Performed plant distillation and extraction procedures to evaluate antiviral properties of medicinal plant compounds; contributed to collaborative research on plant-based therapeutic agents for viral diseases.
- **Cancer Lab:** Assisted with cancer research sample processing, specimen preparation, and data documentation, ensuring quality control and accurate record keeping.
- **Neurology Lab / African Neurobiobanking:** Participated in the African Neurobiobank ELSI (Ethical, Legal, and Social Implications) Project training workshop on stroke genomics and neurobiobanking.
- **COVID-19 Response:** Assisted in the collection and processing of COVID-19 patient samples during the pandemic response, adhering to strict biosafety and infection control protocols.
- **Administrative Support:** Provided administrative assistance, including data entry, laboratory record management, and coordination of research documentation across departments.

CLINICAL OBSERVERSHIP

Infection Prevention, Quality & Patient Safety, and Infectious Disease/Epidemiology, *Emory Johns Creek Hospital, Emory Healthcare*, Johns Creek, GA Jul 2026 – Aug 2026

- Completed a volunteer clinical observership with Infection Prevention, Quality & Patient Safety, and Infectious Disease/Epidemiology teams.
- Observed hospital epidemiology and infection-prevention activities, including CAUTI and CLABSI prevention rounds and reviews involving *C. difficile*, ESBL, VRE, and tuberculosis.
- Gained exposure to NHSN surveillance principles, healthcare-associated infection prevention, case review, and infection-control practices.
- Observed quality-improvement initiatives involving hand hygiene, sepsis measures, and infection-prevention processes.
- Attended Quality & Patient Safety team meetings and observed how the team monitors and manages sepsis cases.
- Developed an SBAR recommendation addressing workflow considerations for the SwipeSense electronic hand-hygiene monitoring program.

COMMUNITY ENGAGEMENT

Volunteer & Public Health Outreach Leader, *Sickle Cell Hope Alive Foundation (SCHAF)*, Ibadan, Nigeria Apr 2021 – Present

- Led planning and coordination of genotype screening and awareness campaigns reaching over 250 participants; led volunteer teams in education, counseling, and community engagement.

Volunteer, Electronic Medical Records Transition, *Virginia Department of Health (Near Southwest Medical Reserve Corps)*, Lynchburg, VA Sep 2025 – Present

- Supporting transition to electronic medical records across the Central Virginia Health District.

Volunteer, Medical Outreach Programme, *Word Communication Ministries (WOCOM)*, Ibadan, Nigeria 2018 – 2024

- Participated in community medical outreach, conducting blood pressure screening and anthropometric measurements; contributed to preventive health awareness in underserved communities.

Additional Volunteer Service 2025 – 2026

- AHEV Leadership Member (Liberty University): Led planning and execution of campus service events.
- LUPHSA Health Fair co-organizer (Spring 2025 & 2026).
- Out of the Darkness Walk team member. Pack Hope for Haiti & World Help humanitarian aid volunteer.

PROFESSIONAL AFFILIATIONS

- Member, *American Public Health Association (APHA)*; Abstract Reviewer, APHA 2026 Annual Meeting (Epidemiology Program; Epidemiology, Occupational Health and Safety, and Community Health Planning and Policy Development Late Breakers)
- Member, *Virginia Public Health Association*

TECHNICAL AND PROFESSIONAL SKILLS

Software: SPSS, R, SAS, Python (pandas, scikit-learn), SQL, Power BI, Tableau, Tableau Prep Builder, ArcGIS, NVivo, Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Canvas LMS, Kobo Collect, Zotero, Mendeley, RefWorks, Microsoft Azure, and Amazon AWS

Research: Research protocol development, grant application preparation, data collection, survey management, research data management, secondary data analysis, epidemiologic study design, biostatistics, linear mixed-effects modelling, spatial data analysis, scoping and narrative literature reviews

Digital Health: Wearable (Fitbit) health data analysis, credentialed-access research data under a data use agreement (PhysioNet), health data privacy, and cloud security hardening

Administrative: Record management, scheduling, academic coordination, confidential data handling

Event Planning: Led and co-organized community health fairs, awareness campaigns, screening events, and campus service events; experienced in team coordination and volunteer management

Professional: Leadership, cross-cultural communication, teamwork, presentation, and organization
